COMMUNICATE WITH COMPASSION

WHAT WE DO

- **We inspire** you through storytelling, laughter, and conversation.
- **We teach** you how to embrace differences, practice empathy, and be upstanders.
- **We engage** with you through presentations, live video, writing, consulting, and social media.

WHO WE ARE

Dede & Peter Dankelson are a mother/son duo with 18 years of experience in pediatric healthcare. Born with a craniofacial syndrome, Peter has endured 30 surgeries. Their different perspectives offer insights into being a pediatric patient and parenting a medically-complex child. The two have been sharing Peter's journey with schools since 2013, encouraging students to #ChooseKind, embrace diversity, and end social isolation. With their collected life experiences, Dede & Peter speak about overcoming adversity, pediatric healthcare, family dynamics, grief & loss, special education, anti-bullying, and disability awareness.
